

MERCO TAPE – TECHNICAL DATA SHEET

Merco All-Weather All Temperature Electrical Tape

Merco All-Weather All-Temperature Electrical Tapes are offered in industry-standard 7-mil thick Black; 7-mil thick Black with plastic cannister; heavy duty 8.5 mil thick Black; and 7-mil in 9 colors to meet Building Codes the world over. Each is UL Approved and CSA listed. Each offers superior insulating performance and is suitable for use at **temperatures to 176F (80C)** making Merco the best choice for quality, performance and price for the professional.

Merco's All-Weather All-Temperature Electrical Tapes are produced high a high-quality PVC vinyl that is suitably plasticized and stabilized and coated with a non-corrosive rubber-based adhesive. This makes them all very conformable. Used for joining, wiring and splicing. Each offers good resistance to sun, water, oil, acids, alkalis and corrosive chemicals. Good memory (elasticity) and adhesion characteristics provides moisture-tight electrical and mechanical protection.

	Total Thickness	Tensile lbs./in	Adhesion to Steel oz./in	Elongation	Dielectric Strength volts/mil	Available Widths x 66ft Length	3M similar
M307	7-mil	21	23	200%	1250	19, 25, 37.5, 50mm	33+
M333	7-mil	21	23	200%	1250	19mm	33+
M85+	8.5 mil	23	23	200%	7650	19mm	88+
M809	7-mil	21	23	200%	1250	19mm	35+

We cut our tapes to full size Imperial dimensions, not Metric. Our tapes have no known hazards (except of course to the state of California, which knows everything to be hazardous.)
