

# MERCO TAPE – TECHNICAL DATA SHEET

## Merco BD Series Single-Roll Desk Top Tape Dispenser *Made in Italy*

**Merco BD Series Single-Roll Desk Top Tape Dispensers** are manufactured in Italy with users of different tape widths in mind. Like traditional dispensers these come with toothed blades, making them ideally suited for Masking and other Paper Tapes, Cloth Tapes, PVC and Polypropylene Tapes. Any tape that does not require a razored cut will feel right at home.

Available in a noticeable Orange. We stock 50mm (2 in), 75mm (3 in) and 100mm (4 in) widths

Like our other Italian dispensers these feature a strong body made of sheet steel (4mm thick) that is coated with a quality epoxy-polyester powder paint. No sand base: the weight of the body and the soft rubber base under it give it the necessary stability and heft so it doesn't move while working on your desk. And having no sand in the base means this can be used in production departments, laboratories and clean rooms without fear of an accident or product failure contaminating your work. (BTW, the pre-drilled holes in the base are not required for use: they are there should your co-workers get any ideas).

2" wide Dispenser	BD/50	3.3lbs. ea	Pack 12 per cs
3" wide Dispenser	BD/75	3.7lbs. ea	Pack 8 per cs
4" wide Dispenser	BD/100	4.4lbs. ea	Pack 6 per cs
