

# MERCO TAPE – TECHNICAL DATA SHEET

## Merco D1-series Handheld Tape Dispenser For Strapping *and* Carton Sealing Tapes *Made in Italy*

- Our D1 Series Tape Dispensers are built with .8mm sheet steel. Like our other dispensers these too are coated in an epoxy-polyester powder paint. We stock Orange so you can put it down and find this around the warehouse.
- A hand brake is featured inside the core. Keeps tape tensioned and keeps your hands from getting 1<sup>st</sup> and 2<sup>nd</sup> degree burns from the roll's cardboard core spinning across your fingers.
- Also like our other dispensers our D1 series features an extremely sharp, extremely durable hardened steel blade. Teeth cut through strapping tape filaments with excellent efficiency.
- This unit will hold rolls up to 122mm in diameter.

D1/25 fits rolls to 25mm in width – pack 25 per case - 0.73 lbs. each

**Merco D1-series Italian-made Handheld Tape Dispensers  
are quality built tools**
