

# MERCO TAPE – TECHNICAL DATA SHEET

## Merco M220, M219, M229 FLAGGING TAPES

**Merco M2XX series Flagging Tapes** are ideal for any marking requirements, outdoors or in. Frequently called **Surveyor's Tape**, Merco Flagging Tapes are used in construction, land management, forestry and logging, regular and open pit mining and of course surveying, mapping and tagging. Non-professionally it is favored for hunting, scouting, expeditions and marking situations to warn others of hazards and similar dangers.

**Merco M2XX series Flagging Tapes** come in three grades:

**Standard Grade M220** is for regular marking. A warning but one placed in an easy-to-see situation. It's very-visible colors come in a **2.5 mil, UV stabilized film** to provide long outdoors use. M229 is suitable for **use to -10F**. Industry standard size on the regular colors is 300 foot.

**Glow Grade M219** is for situations requiring more demanding visibility, such as extended work during rainy seasons and in overcast areas, darker forests, underground mining operations and marking intended to be seen at longer distances. It is extruded into a **4.5 mil film, also UV stabilized**, for extended outside usage and it maintains flexibility **to -10F**. Industry standard lengths on Glow colors is 150 feet.

**Arctic Glow Grade M229** is for those really cold, dead-of-winter environments. We only cut this in Glow colors. Also **UV stabilized**, its **5-mil film** enables use anywhere requiring prolonged outdoor winter exposure. It maintains excellent flexibility to **temperatures as low as -40F**. Put up on 150' rolls.

All Flagging tape is cut to the standard industry width of 1-3/16<sup>th</sup> inches. Standard colors are: **Blue, Green, Orange, Pink, Red, Yellow** and **White**. Glow colors are: **Glow Blue, Glow Green, Glow Orange, Glow Pink, Glow Red** and **Glow Yellow**.
