

MERCO TAPE – TECHNICAL DATA SHEET

Merco M225 series Detectable Underground Tapes

Merco M225 series Detectable Underground Tape is a superior quality buried warning tape designed to info others of potential hazards and liabilities when digging.

Our **Merco M225 series Detectable Underground Tapes** are 5-mil thick double-laminated on a .35mil solid aluminum foil core. Construction is .8 mil clear polypropylene over-film, reverse printed and laminated to the aluminum and 3.75 mil clear polyethylene film. This makes **Merco M225 series Detectable Underground Tape** permanently printed. Our tape is offered in **6 APWA color coded legends** (with others available upon request.) All Merco M225 Underground Detectable marking tapes meet or exceed the industry standards, including the American Public Works Association (APWA) color code. Standard stocked sizes are all 1000-foot rolls, in industry standard widths of 3 inch and 6 inch.

American Public Works Association (APWA)
Guidelines to Uniform Temporary Markings of
Underground Facilities

RED Electrical Power Lines Cables	BLUE Water Lines Potable Water	ORANGE Telephone Communications Alarms
