

MERCO TAPE – TECHNICAL DATA SHEET

Merco M700 series VINYL DUCT TAPE

Merco M700 series VINYL DUCT TAPE is a soft PVC tape that is used in numerous building, shipping and electrical related applications. The PVC film is embossed to industry standards and is coated with a rubber-based pressure sensitive adhesive.

Merco M700 series VINYL DUCT TAPE, when used in it's intended applications is a preferred choice among contractors: it is easy to tear and does so with a straight cut, even by hand. It offers a clean removal leaving minimal residue behind. It is highly hand conformable lending itself towards ease of use in cabling and bundling situations. M700 is offered in a retail friendly package with a UPC coded label.

Merco M700 series VINYL DUCT TAPE APPLICATIONS: is ideal for identification and color coding. Suitable for wrapping pipes, general holding and bundling applications. Used extensively in export situations to seal boxes as it does not contain any cloth, making it moisture resistant and anti-corrosive. It will not absorb water. And for some reason which no one here can figure out 3M calls this an Electrician's Bundling tape. We're not really sure what they would bundle with this.

Tensile Strength:	11 lbs./inch – 2 Kg/cm of width
Adhesion to Stainless:	18 oz/inch - .20 Kg/cm of width
Thickness:	6.7 mils/.17mm
Elongation to Break:	100%
Temperature Range:	Suitable for use to 140°F / 60°C
Dims:	2 in. x 60yd rolls - 3" core – 24 rolls/cs.

M700 is similar in performance and specifications to Scotch® 2000, part number 43403, Electrician's Bundling Tape.
