

MERCO TAPE – TECHNICAL DATA SHEET

Merco M803 series Black and Colored Electrical Tapes

Merco M803 are superior quality, general purpose UL Approved, CSA listed Vinyl Electrical Tapes. They feature the same high-quality specifications as Merco M801 but put up in a more consumer-friendly (i.e. shorter length) roll. We offer M803 in Black and in 7 colors.

M803 is made from an extremely high-quality soft PVC vinyl that is coated on one side with a non-corrosive rubber-based adhesive. This makes the M803 very conformable and very stretchy. M803 is typically used for homeowners and retail applications. Ideal for hardware, dollar store, supermarket and other price-point retail situations. It has all the features and quality of M801.

M803 is put up in retail standard 50' rolls for Black, 60' rolls for colors.
