

MERCO TAPE – TECHNICAL DATA SHEET

Merco T30R-series Handheld Tape Dispensers T30R-SB with a Special Safety Blade mechanism *Made in Italy*

T30R-SB is our standard T30R gun with a specially designed cutting mechanism intended to help keep fingers away from the blade. Ideal for low volume shops, offices or applications where workers may not be as comfortable or familiar with sealing cartons.

1.45 lbs. ea. - pk. 10 per case - open stock available

All our T30R-series Italian-made Handheld Pistol Grip Tape Dispensers are quality built tools

- Each is made with a ribbed, heavy-duty, 2mm thick steel frame that is painted with a durable, bright epoxy resin paint. Any attaching screws thread into steel fittings. The adjustable brake is metal, holding tension during use.
- Standard size dispensers hold rolls to 136mm in diameter. Long frame models to 175 mm.
- The tempered steel blade remains sharp for a long time and the teeth resist bending and braking.
- Comfortable, ergonomic handle and the core holder is made of ABS and contains no dangerous Polycyclic Aromatic Hydrocarbon. The pressure plate/wipe down tab is made of fiberglass reinforced nylon.
- Adjustable gate swings open and during use only touches the tape with a very narrow footprint.
- The application roller is made of rubber (not plastic) allowing better applications to your cartons. Less bubbles and more surface contact.

T30R Series Handheld dispensers are available in a variety of models, widths and colors.
